## Grant Project Description

The Jail Mental Health Pilot Program will implement a mental health program for female inmates that are incarcerated. Focus will be on therapeutic programming, case management, discharge planning, transitional medication, public transportation and specialized staff training. The goal is to reduce recidivism amongst the female offenders. By implementing a mental health program that focuses solely on female offenders suffering from mental illness the Jail Mental Health Therapist can devote the time necessary to this population.

## Grant Project Description

This program will provide participants with enhanced opportunities to develop skills to be more successfully reintegrated into the community and put into place services to better provide for those basic unmet needs, all aimed at increasing mental capacities while decreasing the rate of recidivism in this sector of the population. This will ultimately improve the quality of life for a very vulnerable population, and will lead to more appropriate spending of tax dollars and usage of local and state hospital beds.

### Grant Project Description

WVRJ will expand current mental health services to include cognitive-behavioral therapy, peer support, recovery planning, and mental health education by establishing Healthy Minds. This program will help inmates improve and manage their mental illness while incarcerated and after release through increased understanding of their illness, the utilization of evidence-based curricula and practices to address their illness, and the development of an aftercare plan to maintain their wellness. The program will utilize the following evidence-based curricula and/or practices: Changing Offender Behavior (COB), Dialectical Behavior Therapy – Corrections Modified (DBT\_CM) Skills Training, Seeking Safety, and Wellness and Recovery Action Plan (WRAP). WVRJ expects to serve approximately 1,000 inmates over the grant period.
